

Monthly Webinar Schedule

In direct response to customer requests, starting in February we will be offering monthly webinars to help you maximize your MSS21 investment. Each month we will offer an opportunity to get additional training on specific areas within the software, system operations and IBM products, or optional modules within MSS21 that may be relevant to your business. Some will be free, others will have a fee, and all of them will be informative. Specific dates for each webinar will be forthcoming, but they will all be scheduled around the 15th of the month to avoid conflicts with Month-End, etc.

Topic By Month:
